

Whether you have Type 1 or Type 2 Diabetes, you can get convertible life insurance.

Have you looked into life insurance lately? If you are a diabetic, things are looking brighter! As you know, it can be difficult to obtain life insurance that meets your family's needs now and in the future. You can protect the changing needs of your family—FINALLY!

Do you qualify? A few simple questions can help you determine if you can get non-med life insurance coverage with Foresters Financial.™ For example:

- Insulin—If you take insulin, you **CAN** get coverage
- A1C—If you have an A1C up to 10.9, you **CAN** get coverage

With these and a few more questions, you can find out in 10 minutes or less whether you are eligible for coverage and if so, get issued quickly (2-5 business days). With built-in living benefits options, you can customize your policy to meet your needs.
